

Student Assistant for Analysis and Testing of Plastics (AToP) Wanted

Dear students,

We are searching for a student assistant (with Bachelor's degree) to support the exercise activities of the course, *Analysis and Testing of Plastics*. The proposed work contract is for **4 hours per week** throughout **15 weeks** in the Summer Semester 2025.

If you have practical experience with materials characterization and mechanical testing, this opportunity is ideal for you! Our exercise activities shall include DSC, DEA, FTIR, DMA, TGA, tensile and compression testing. Therefore, experience with carrying out these tests and analyses is of great value.

Six exercise sessions will be held during the following time slots:

- Wed. 07.05.2025, 15.00 – 16.30
- Wed. 14.05.2025, 15.00 – 16.30
- Wed. 21.05.2025, 15.00 – 16.30
- Wed. 28.05.2025, 15.00 – 16.30
- Wed. 11.06.2025, 15.00 – 16.30
- Wed. 18.06.2025, 15.00 – 16.30

If your experience and interests align with this opportunity, please send a short message of interest to kneev.sharma@tum.de, including a CV and your Bachelor's and current grade transcripts. We look forward to reviewing your applications.

Best regards,

LWW and LBAM Teams
